

Professional Discipline Complaint Form

Instructions for Completing Complaint Form

To complain about service or treatment by a licensed professional, or about illegal practice of a profession by an unlicensed person, complete the COMPLAINT form on page 2. Please note that we do not have authority to investigate fees you believe are too high or to intervene in fee disputes. However, we can investigate complaints involving fraudulent billing.

Type or print clearly in black ink. Describe your complaint as completely as you can. If you do not have a daytime telephone number, it is helpful if you can provide a number where a message can be left for you during the day. If you have any papers that may support your complaint, such as bills or correspondence, please attach copies. Do not send originals. If you have physical evidence, such as incorrectly dispensed medications, it is important for you to retain that evidence in its original condition.

Be sure to sign and date your complaint. Send it to one of the regional Offices of Professional Discipline. When your complaint is received, it will be assigned to an investigator who will contact you in writing or by telephone. You will have an opportunity to explain your complaint in more detail. If we do not have the authority to investigate your complaint we will refer it to the appropriate agency.

Also, complete the **AUTHORIZATION** portion of this form by entering your name and the name of the practitioner and/or hospital in the appropriate spaces. The Authorization directs the professional, hospital, or other facility to release information about your treatment or the services rendered to you. Sign and date the Authorization, and have it signed and dated by a witness. A witness can be any person 18 years or older. The Authorization does not have to be notarized. Please note that if you leave the Authorization blank, it may delay the investigation of your complaint.

IMPORTANT! Complaints against physicians (general practitioners, internists, cardiologists, gynecologists, pediatricians, urologists, surgeons, radiologists, oncologists, anesthesiologists, ophthalmologists, orthopedists, and others) should be sent to: New York State Department of Health, Office of Professional Medical Conduct, Riverview Center, 150 Broadway, Suite 355, Albany, NY 12204. **ALL OTHER COMPLAINTS SHOULD BE SENT TO ONE OF THE OFFICES LISTED BELOW. SENDING THE COMPLAINT TO THE WRONG AGENCY WILL DELAY THE INVESTIGATION.**

Describe your complaint here. Be specific. What happened? When? Where? Type or use black ink. Use additional sheets if necessary. Please read the instructions on page 1 carefully before describing your complaint.

On February 16, 2025, I visited Mercy Hospital to obtain toxicology testing and treatment due to poisoning causing severe rectal pain.

The actions of the medical staff were seriously negligent. They did not give me the care a patient should expect after reporting poisoning and an assault involving rectal pain. Nurse Sarah and the triage staff would not perform a toxicology screening and gave no reasonable explanation as to why. Because they did not help obtain forensic evidence, a criminal investigation became difficult and my health suffered.

While I was there, Nurse Sarah and other staff were extremely hostile and unprofessional. It seemed they disapproved of my South Asian appearance, my Muslim religion, and my national origin. I experienced a very long wait in the waiting room for 8 hours and another hour in triage without getting any help. Despite the rectal pain poisoning assault, the staff did not provide proper emergency care.

My discharge papers incorrectly state that Dr. Monique Mirshak examined me. However, I never saw or spoke with her. This suggests the staff went beyond what they are allowed to do by completing a discharge without Dr. Monique's assessment. It also suggests they falsified the medical record to make it look like Dr. Monique was involved when clearly she was not.

The denial of proper services such as toxicology testing was discriminatory and constituted patient abuse, gross negligence, and deceit. This was based on prejudice because I am a South Asian man of Bengali origin and a Muslim. I also faced discrimination because of my gender as a male victim of rectal assault. I am asking the Office of the Professions to look into the professional licenses of Nurse Sarah and the supervisors involved. Their actions showed a lack of respect for civil rights and medical safety. I want official disciplinary action taken so other patients do not experience such targeted neglect and misconduct.

To the best of my knowledge, the information in this complaint is true and complete.
